## ABOUT US

Nosaz stone industry with more than forty years of experience in the production and processing of building stone under management of *Mr.Bolkhari* has defined its activity in two branches : the first one exploration and exploitation of mines and second one production of exportable ston.

This group by using the latest technology in machinery like Italian Simec machines tries to provide the most qualified marble stone.

continuous export, participation in biggest mass production projects and cooperation with best architects make this company trustworthy for its customers.

## NOSAZ STONE

As you may know quality, variety of colors and healthiness of stone blocks besides the potential of quarries can make a factory into 60% succeeded.

The other factors like production process or sales method without a powerful quarry cannot be that much effective.

Silver sky marble quarry in Kurdistan ,Iran, is one of the best and biggest quarries in Iran. Stone blocks of this quarry exclusively and directly sent to Nosaz and the export or processing process begins immediately.

China, India,Russia, Italy and international exhibitions are among the destinations of exportable stone blocks.

SILVER SKY

## ARACO

Araco is a Kurdish name which means the highest part of the mountain.

This type of stone is produced from the mountains of Mahabad, Iran, and is a good example of the strength and quality of mountains in that region.

## IRIS

The name of Iris leads from a Greek goddess which means rainbow and this type of stone with majestic 3D veins is a good remember for that goddess.

Iris because of its perfect quality and variety of colors can be used in luxury buildings.

# ANALYSIS

FAVORIBLE AMOUNT	PUSHING RESISTANCE	POROSITY	WATER ABSORPTION	ABRATION RESISTANVE	SPECIAL WEIGHT
